Waiver

I understand that competing in a triathlon has inherent risks. I agree not to sue anybody for any reason regardless of the circumstances and who is at fault. I understand that I could crash for many reasons. I could be hit by another competitor, a car, lightning, or even a cow on the road. An accident could leave me seriously injured, paralyzed, or dead. I accept these risks as part of completing a triathlon.

I understand that this is a recreational race and the course is open to traffic. I will do my best to watch for other competitors, traffic, people, and anything else on the road.

I also refuse to allow my family to sue anybody in the case I am killed or unable to communicate.
